Webinar: Reporting on the results of your test

*Nicholas Dodd and Mauro Cordella,
DG JRC B5*

12th June 2019

Profile of the Level(s) testers

More than 120 registrations at close of registration in 2018

- 62 residential building tests
 - 45 new build, 17 major renovations
- 57 Office building tests, 16 major renovations
 - 41 new build, 16 major renovations

EU area	Residential	Office
North	18	18
East	5	4
West	23	19
South	16	16

Reporting on your results

- Have you managed to **generate results** for all your selected indicators and life cycle tools?
- Is there still any **support you need from the helpdesk** to generate a result?
- Have you downloaded and managed to use the **Level(s) common reporting spreadsheet**?
- What should you do if you **encounter a problem** with the reporting spreadsheet?
- Is there something **your not sure how to report** using the spreadsheet?
- How can you report **other findings** from your test?

Level(s) common reporting format

Excel spreadsheet version of the suggested reporting formats you can find in the Level(s) part 3 documentation

What it does

- ✓ Provides ready-made reporting of results according to the suggested format
- ✓ Calculation of indicator 6.2 ratings

What it doesn't do

- ✓ Makes the calculations required to generate a result

Updates have been made based on errors or problems identified by Level(s) testers

Submitting your results

Once you have the spreadsheet and any supplementary information ready **what's the next step?**

- Deadline is **30th June 2019**
- Submit the excel by **email** to the helpdesk: jrc-b5-levels@ec.europa.eu
- Include the name of the test project in the **email header and the file name**
- Please note if there are any indicators and tools that you have been **unable to report on**
- Start to prepare your **survey response**

Level(s) EU Survey

Weblink: https://ec.europa.eu/eusurvey/runner/Levels_test_survey

Password: levelstest

Aim: to obtain feedback on three key aspects of your project 's test of Level(s):

- How useful was Level(s) for assessing the buildings performance?
- How did the design of Level(s) support the process of making the assessment?
- How user friendly were the selected indicators and life cycle tools, together with their supporting guidance?

Before completing the survey: we recommend reviewing the questions with the project team to gather the experience and feedback.

Testers must submit via EU Survey by **30th September 2019**.
