

The European Commission's science and knowledge service

Joint Research Centre

**2nd Ad-hoc Working Group
meeting
Brussels 23 February 2017**

Joint Research Centre in the context of the European Commission:

Activities in support of Product Policy

*JRC supports the development and implementation of **Sustainable Product Policies**, amongst them the EU Ecolabel Regulation, the Green Public Procurement Communication, the Ecodesign for Energy Related Products Directive and the Energy Labelling Directive.*

*The Product Bureau carries out the **analysis of a broad range of product groups and development of environmental criteria** with focus on techno-economic as well as environmental aspects.*

EU Green Public Procurement (GPP) Policy

European Commission
Environment Directorate-General

European
Commission

EU Green Public Procurement Policy

GPP Benefits

Decreasing GHG and hazardous substances, increasing resource and energy efficiency...

Social

Improving health and well-being...

Environmental

GPP

14% of GDP

Political

Increasing uptake of green technologies and products, supporting innovation...

Economic

Achieving environmental obligations, showing commitment to environment protection and sustainable consumption and production...

European
Commission

EU Green Public Procurement Policy

Obstacles to GPP

- Lack of political support
- Green products are perceived to cost more
- Lack of knowledge on how to verify green criteria
- Lack of awareness of the benefits of green products
- Lack of professional workforce + time

Commission support

Communication (2008)

Public Procurement for a Better Environment

- Political **target**: **50%** of tendering procedures to be green by 2010
- Common **EU GPP criteria** for priority products and services
- Legal/operational **Guidance**
- GPP National Action Plans

European
Commission

EU Green Public Procurement Policy

GPP is voluntary...with some exceptions

- **Energy Star Regulation (2008):** obligation to buy office equipment at least as efficient as the Energy Star standards
- **Clean Vehicles Directive (2009):** obligation to buy environmental friendly vehicles (taking at least CO₂, PM10, NOx and NMHC), life cycle tool!

European
Commission

EU Green Public Procurement Policy

GPP is voluntary...with some exceptions

- **Energy Efficiency Directive (October 2012):**

"soft" obligation to purchase energy efficient buildings and equipment of the highest energy labelling class. ONLY FOR:

- *central government*
- *purchases above the value thresholds*
- *"insofar as this is consistent with cost- effectiveness, economic feasibility, wider sustainability, technical suitability, sufficient competition"*.

GPP support tools

GPP website of the European Commission:

- *Full sets of EU GPP criteria and background reports in 20+ languages*
- *Buying Green Handbook **NEW!***
- *More than 100 GPP Examples*
- *News and upcoming events*

HELP DESK:

*In EN, FR, DE [**gpp-helpdesk@iclei.org**](mailto:gpp-helpdesk@iclei.org)*

Newsletter (please sign up!)

Green Public Procurement in CE AP

- *Key role for circular economy acknowledged*
- *Special emphasis on circular economy aspects in criteria-setting*
- *Support a greater uptake of GPP criteria by public authorities, e.g. by training*
- *Commission to lead by example - in its own procurement, and by reinforcing the use of GPP in EU funding*

European
Commission

Reinforcing CE aspects in GPP criteria

Examples

- *Replaceability and longer life-time of batteries in laptops*
- *Easy dismantling of monitors for recycling*
- *Easy repair of furniture, incl. spare part availability*
- *Encourage use of recycled materials in construction*

EU Green Public Procurement Policy

Criteria under development

- Street lighting
- Food and Catering
- Cleaning Services
- Furniture
- Textiles
- Transport
- Paints and Varnishes
- Data Centres

European
Commission

EU Green Public Procurement Policy

Two levels of criteria

Core criteria:

- Aim at addressing the key environmental impacts
- Require minimum additional verification effort or cost increases.

Comprehensive criteria:

- Aim at purchasing the best environmental products available on the market
- possibly requiring additional verification efforts or a slight increase in cost compared to other products with the same functionality.

GPP criteria are largely based on standard Type I ecolabels. It is however not allowed to ask for products to have a specific label.

Agenda

		SCHEDULE
1.	Opening and welcome a. Introduction to the EU Green Public Procurement b. Timeline of the project c. Revision of the scope and definition d. LCC considerations	09:00 – 09:30
2.	EU GPP Criteria proposal for Food - Criteria set presentation and discussion - Organic food products - Integrated production - Environmentally responsible palm oil	09:30– 11:00
	Break	11:00 – 11:15
3.	EU GPP Criteria proposal for Food - Criteria set presentation and discussion (continuation) - Marine and aquaculture food products - Animal welfare - Fairly traded products	11:15 – 12:15
4.	EU GPP Criteria proposal for Catering Services - Criteria set presentation and discussion - Competences of the tenderer - Staff training - Food procurement - Promotion of vegetarian menus	12:15 – 13:00
	Lunch break, followed by a coffee break	13:00 – 14:00

EU GPP CRITERIA SET PROPOSAL FOR **SCOPE, DEFINITIONS AND LCC CONSIDERATION**

SCOPE AND DEFINITION

Scope

The direct procurement of food by public authorities and the procurement of catering services, either using in-house resources or facilities or out-sourced in full or in-part through contract catering firms.

Food can be procured directly from producers, manufacturers, wholesalers or importers or can form part of the service provided by the contract catering firms.

Definitions

- Catering service
- Contract catering firm
- Conventional kitchen
- Centralised production unit
- Ready-prepared
- Assembly-serve
- Vending and hot drink machines
- Water dispensers

LIFE CYCLE COST CONSIDERATIONS

Type of costs considered

1. Purchase costs of raw materials (food purchase) and other purchases (eg consumable goods, chemicals, other products)
2. Inventory and storage costs
3. Labour cost
4. Utilities cost
5. Maintenance and insurance costs.
6. Taxes
7. Financial cost
8. End of life costs

Table 6. Breakdown of the costs per serving of a catering service (example)

Costs		Value		Percentage	
Direct	Served raw material	3.18 euro	3.66 euro	28.9 %	33.2 %
	Security margin	0.48 euro		4.3 %	
Indirect	Labour	6.39 euro	7.36 euro	58.0 %	66.8 %
	Utilities	0.12 euro		1.1 %	
	Amortizations	0.60 euro		5.5 %	
	Purchases	0.13 euro		1.2 %	
	Marketing	0.03 euro		0.3 %	
	Insurance	0.04 euro		0.4 %	
	Taxes	0.04 euro		0.3 %	
	Financial costs	0.02 euro		0.2 %	
	Total			11.02 euro	

EU GPP CRITERIA SET PROPOSAL FOR **FOOD PROCUREMENT**

Criteria	Type of criteria
Organic food products	TS 1
	AC 1
Marine and aquaculture food products required	TS 2
	AC 2
Integrated production	TS 3
	AC 3
Animal welfare	TS 4
	AC 4
Fairly traded products	AC 5
Environmentally responsible palm oil	AC 6

Criteria	Type of criteria
Organic food products	TS 1 AC 1
Marine and aquaculture food products required	TS 2 AC 2
Integrated production	TS 3 AC 3
Animal welfare	TS 4 AC 4
Fairly traded products	AC 5
Environmentally responsible palm oil	AC 6

**TS1. Organic food products****Option A**

At least X%¹⁾ of the total purchases of food and drink products shall comply with the Regulation (EC) No 834/2007.

Option B

The following food and drink products [list of food and drink products in the explanatory notes] shall comply with the Regulation (EC) No 834/2007.

Verification (both options)

The tenderer shall provide data (name and amount) of food and drink products planned to be supplied in the execution of the contract indicating specifically the products that comply with organic requirements.

Organic products that have been third party certified in accordance with Regulation (EC) No 834/2007 on organic production and labelling of organic products will be deemed to comply.

¹⁾ X is the thresholds to be defined by the procurer for the comprehensive and core levels (AC). Recommendations for its value are given in explanatory notes below.

**AC1. Additional organic food products****Option A.**

Points shall be proportionally awarded to tenders in which more than X%¹⁾ of the total purchases of food and drink products have been produced in accordance with Regulation (EC) No 834/2007.

Option B.

Points shall be proportionally awarded to tenders that exceed the list of food and drinks products [listed in TS1 option B] and comply with the organic products standards

Verification (both options)

See above TS1

¹⁾ X is the thresholds to be defined by the procurer for the comprehensive and core levels (AC). Recommendations for its value are given in explanatory notes below.

ORGANIC FOOD PRODUCTS

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight, units or value.

Recommended values for core criteria:

20-60% in mass of the total purchases of food and drinks products or
10-30% in value of the total purchases of food and drinks products

List of products can include: fruit, vegetables, legumes, rice and pasta.

Recommended values for comprehensive criteria:

>50% in mass of the total purchases of food and drinks products or
20-40% in value of the total purchases of food and drinks products

List of products can include: fruit, vegetables, legumes, rice, pasta, bread and bakery products, eggs, daily products, etc.

INTEGRATED PRODUCTION

COMPREHENSIVE

Note: Each Member State has its own regulations and IP guidelines can vary substantially in methods and measures. Consequently, any requirement on IP recommended in EU GPP criteria may conflict with specific Member State legislation.

TS3. Integrated production

At least Y%¹⁾ of the purchases not complying with the organic food products criterion shall be compliant with the integrated production standards and/or guidelines of a certification scheme for integrated production that is on multi-stakeholder based, including producers and retailers, addressing environmental impacts including pest, crop and waste management and conservation²⁾

Verification

The tenderer shall provide data (name and amount) of all food products planned to be supplied in the execution of the contract indicating specifically the ones compliant with the requirements.

¹⁾ X and Y are the threshold to be defined by the procurer for the core and comprehensive levels (TS and AC). Recommendations for its value are given in explanatory notes below

²⁾ Food products that have been certified in accordance with integrated production national or regional regulation will be deemed to comply. Other schemes such as Global GAP, IOBC, FSA with at least bronze equivalence, etc. can comply with the criterion provided they cover the environmental principles mentioned above. Other schemes at country level can be considered as equivalent as far as they comply with the environmental principles mentioned above.

INTEGRATED PRODUCTION

CORE=COMPREHENSIVE

AC3. Additional Integrated production

At least Y%¹⁾ of the purchases not complying with the organic food products criterion shall be compliant with the integrated production standards and/or guidelines of a certification scheme for integrated production that is on multi-stakeholder based, including producers and retailers, addressing environmental impacts including pest, crop and waste management and conservation²⁾

Verification

The tenderer shall provide data (name and amount) of all food products planned to be supplied in the execution of the contract indicating specifically the ones compliant with the requirements.

1) X and Y are the threshold to be defined by the procurer for the core and comprehensive levels (TS and AC). Recommendations for its value are given in explanatory notes below

2) Food products that have been certified in accordance with integrated production national or regional regulation will be deemed to comply. Other schemes such as Global GAP, IOBC, FSA with at least bronze equivalence, etc. can comply with the criterion provided they cover the environmental principles mentioned above. Other schemes at country level can be considered as equivalent as far as they comply with the environmental principles mentioned above.

INTEGRATED PRODUCTION

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight, units or value.

Recommended values for core criteria:

0-10% in mass of the total purchases not complying with organic food products criterion.

Recommended values for comprehensive criteria:

20-40% in mass of the total purchases not complying with organic food products criterion.

ENVIRONMENTALLY RESPONSIBLE PALM OIL

CORE=COMPREHENSIVE**AC6. Environmentally responsible palm oil (1/1)**

1. Points shall be awarded proportionally to tenders in which more than X%¹⁾ of the units/items of pre-packed food products containing palm oil have been sourced from plantations that meet the requirements of a certification scheme for sustainable production that is based on multi-stakeholder organizations that has a broad membership, including NGOs, industry and government and that addresses environmental impacts including on soil, biodiversity preservation, organic carbon stocks and conservation of natural resources²⁾

Verification:

The tenderer shall provide data (name and amount) of all food products containing palm oil (as units) planned to be supplied in the execution of the contract indicating specifically the ones compliant with the criterion.

ENVIRONMENTALLY RESPONSIBLE PALM OIL

CORE=COMPREHENSIVE**AC6. Environmentally responsible palm oil (2/2)**

2. Points shall be awarded proportionally to tenders in which more than Y%¹⁾ of the palm oil purchased as raw ingredient have been sourced from plantations that meet the requirements of a certification scheme for sustainable production that is based on multi-stakeholder organizations that has a broad membership, including NGOs, industry and government and that addresses environmental impacts including on soil, biodiversity, organic carbon stocks and conservation of natural resources²⁾.

Verification

The tenderer shall provide data (name and amount) of all palm oil (as raw ingredient) planned to be supplied in the execution of the contract indicating specifically the purchases compliant with the criterion.

ENVIRONMENTALLY RESPONSIBLE PALM OIL

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight, units or value.

Recommended values for core criteria:

X=10-30% of the units/items of pre-packed food products

Y=10-30% in mass of the total vegetable oil or margarine (bought as raw ingredient)

Recommended values for comprehensive criteria:

X=30-50% of the units/items of pre-packed food products

Y=30-50% in mass of the total vegetable oil or margarine (bought as raw ingredient)

Criteria	Type of criteria
Organic food products	TS 1 AC 1
Marine and aquaculture food products required	TS 2 AC 2
Integrated production	TS 3 AC 3
Animal welfare	TS 4 AC 4
Fairly traded products	AC 5
Environmentally responsible palm oil	AC 6

MARINE AND AQUACULTURE FOOD PRODUCTS

CORE=COMPREHENSIVE

TS2.1 Fish to avoid

All fish and fish products must not contain species and stocks identified in a 'fish to avoid' list that reflects the local varieties of fish¹⁾

Verification

The tenderer shall provide data (name and the amount) of marine and aquaculture food products, planned to be supplied in the execution of the contract indicating specifically the marine and aquaculture products that comply with the requirements.

¹⁾ The selection of only one list is recommended, such as: Marine Conservation Society "fish to avoid" list. Equivalent lists can be found from: WWF's Sustainable Seafood guides, IUCN, Seaweb Europe, CITES, FAO, NOAA, Monterey Bay Aquarium Seafood Watch, Greenpeace, etc.

MARINE AND AQUACULTURE FOOD PRODUCTS

COMPREHENSIVE

TS2.2 Environmentally responsible origin (marine)

At least Y%²⁾ of the amount of marine food products purchases shall have been produced meeting the requirements of a certification scheme (multi-stakeholder based organization) addressing environmental impacts: over-fishing or depletion, biodiversity preservation and responsible and rational use of the resources³⁾.

TS2.3 Environmentally responsible origin (aquaculture)

At least Y%²⁾ of the amount of aquaculture food products purchases not complying with the organic food products criterion shall have been produced meeting the requirements of a certification scheme (multi-stakeholder based organization) addressing environmental impacts: biodiversity preservation and responsible and rational use of the resources³⁾.

Verification

The tenderer shall provide data (name and the amount) of marine and aquaculture food products planned to be supplied in the execution of the contract indicating specifically the products that comply with the requirements.

MARINE AND AQUACULTURE FOOD PRODUCTS

CORE=COMPREHENSIVE

AC2.1 Additional marine and aquaculture food products

Points shall be awarded proportionally to tenders in which more than X%²⁾ of the amount of marine or aquaculture food* products purchases have been produced meeting the requirements of a certification scheme (multi-stakeholder based organization) addressing environmental impacts: over-fishing or depletion, biodiversity preservation and responsible and rational use of the resources³⁾.

Verification:

See above TS2

*not complying with the organic produce criterion.

²⁾ X and Y are the threshold to be defined by the procurer for the core and comprehensive levels (TS and AC). Recommendations for its value are given in explanatory notes below.

³⁾ Such as, e.g., the Marine Stewardship Council (MSC), Aquaculture Stewardship Council (ASC), Globalgap. Other schemes at country level can be considered as equivalent as far as they comply with the environmental principles mentioned above.

MARINE AND AQUACULTURE FOOD PRODUCTS

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight or value.

Recommended values for core criteria (X%)

0-20% in mass of total purchases of fish products

0-10% in value of total purchases of fish products

0-20% in mass of total purchases of aquaculture products not complying with the organic food products requirements

0-10% in value of total purchases of aquaculture products not complying with the organic food products requirements

Recommended values for comprehensive criteria (Y% or X%)

20-50% in mass of total purchases of fish products

10-40% in value of total purchases of fish products

20-50% in mass of total purchases of aquaculture products not complying with the organic food products requirements

10-40% in value of total purchases of aquaculture products not complying with the organic food products requirements

Criteria	Type of criteria
Organic food products	TS 1 AC 1
Marine and aquaculture food products required	TS 2 AC 2
Integrated production	TS 3 AC 3
Animal welfare	TS 4 AC 4
Fairly traded products	AC 5
Environmentally responsible palm oil	AC 6

**TS4.1 Free-range eggs**

None of the eggs in shell coming from conventional farming are labelled code 3 of Regulation (EC) No 589/2008 or equivalent.

Verification

The tenderer shall provide the amount of the eggs in shell planned to be supplied in the execution of the contract indicating specifically the ones compliant with code 1 or 2 of Annex I part A to Regulation (EC) No 589/2008.

ANIMAL WELFARE

CORE=COMPREHENSIVE

AC4.1 Animal welfare

Points shall be proportionally awarded to tenders in which more than X%¹⁾ of the eggs in shell not complying with the organic food products criterion are labelled code 1 of Regulation (EC) No 589/2008.

AC4.2 Animal welfare

Points shall be proportionally awarded to tenders in which more than Y%¹⁾ of the total purchases of meat not complying with the organic criterion have been produced meeting the requirements of a certification scheme (multi-stakeholder based organization) addressing less stress, rational use of antibiotics, stunned slaughter, transportation times, and particular aspects as grazing season for milk cows or no tail docking on pigs²⁾.

Verification

AC 4.1. See above TS4

AC 4.2. The tenderer shall provide data (name and amount) of the meat products planned to be supplied in the execution of the contract indicating specifically the ones that comply with the requirements.

¹⁾ X and Y are the threshold to be defined by the procurer for the comprehensive and core levels (AC)..

²⁾ Label Rouge, GlobalGAP with the add-on of Animal welfare, RSPCA Assured, Red Tractor Farm Assurance are deemed to comply, provided they cover the principles mentioned above.

ANIMAL WELFARE

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight, units or value.

Recommended values for core criteria

X = 80% of the eggs in shells not complying with organic food products criterion are labelled with code 1

Y= 0-25% of meat products not complying with organic food products criterion

Recommended values for comprehensive criteria

X= 100% of the eggs in shells not complying with organic food products criterion are labelled with code 1

Y=25-50% of meat products not complying with organic food products criterion

AC5. Fairly traded products (1/2)

Option A

Points shall be awarded proportionally to tenders in which more than X%¹⁾ of the total items of each of the following products: coffee, tea, chocolate (cocoa), sugar and bananas, have been produced and traded meeting the requirements of a certification scheme for fair trade that requires a minimum content of certified product of 90% and that is based on multi-stakeholder organizations with a broad membership and addresses international fairtrade standards including working conditions for production in accordance with ILO, fair trade and pricing²⁾.

Verification

The tenderer shall provide the list of products planned to be supplied in the execution of the contract that comply with the criterion.

¹⁾ X is the thresholds to be defined by the procurer for the comprehensive and core levels (AC). Recommendations for its value are given in explanatory notes below.

²⁾ Fairtrade®, UTZ, Bonsucro, etc. can show compliance with the criterion provided they cover the principles mentioned above. Other schemes country level can be considered equivalent if they comply with the principles mentioned above.

AC5. Fairly traded products (2/2)

Option B

Points shall be awarded proportionally to tenders in which food and drinks products have been produced and traded meeting the requirements of a certification scheme for fair trade that requires a minimum content of certified product of 90%, multi-stakeholder based on multi-stakeholder organizations with a broad membership and addresses international fairtrade standards including working conditions for production in accordance with ILO, fair trade and pricing²⁾.

Verification

The tenderer shall provide data (name and amount) of all food and drink products planned to be supplied in the execution of the contract indicating specifically the ones compliant with the criterion.

²⁾ Schemes such as Fairtrade®, UTZ, Bonsucro, etc. can show compliance with the criterion provided they cover the principles mentioned above. Other schemes country level can be considered as equivalent if they comply with the principles mentioned above.

FAIRLY TRADED PRODUCTS

Explanatory notes

The contracting authority will have to specify how the percentage will be calculated, either in volume, weight, units or value.

Option A

Recommended values for core criteria:

X=10-30% of total purchases of each product: coffee, tea, chocolate (cocoa), sugar and bananas.

Recommended values for comprehensive criteria:

X=30-70% of total purchases of each product: coffee, tea, chocolate (cocoa), sugar and bananas.

Option B

The list of products can include: coffee, tea, chocolate (cocoa), sugar, bananas, other fruits, pre-packed products, etc.

Criteria	Type of criteria
Organic food products	TS 1 AC 1
Marine and aquaculture food products required	TS 2 AC 2
Integrated production	TS 3 AC 3
Animal welfare	TS 4 AC 4
Fairly traded products	AC 5
Environmentally responsible palm oil	AC 6

Proposed removed Criteria	Type of criteria
Packaging	AC 1
Seasonal products	AC 2
